

Road Safety Week

Road Safety education plays a vital role in shaping the attitude and behaviour of children as well as young people, thereby ensuring that they become a responsible driver, passenger, pedestrian and cyclist,

Road Safety week was celebrated in RMDSSDS through a competition for general knowledge about road safety in the form of a questionnaire. These were 30 multiple choice questions which students had to solve in 15 minutes.

The test was conducted on 10/4/19 for std. VI to IX. All the students participated enthusiastically and even shared their experiences and knowledge about road safety in the class.

Most of the students were able to solve the questionnaire. As per their scores, top 3 students were chosen from each section and were given certificates and trophies.

It was a successful event and the importance of road safety was re – emphasized through the test.

Proud of our children for having knowledge about traffic rules.

“Well done! Drive safely towards future.”
