

Workshop on 'Safe Kids'

Nowadays safety of each student in school is very important factor as well responsibility of school. CBSE has made it mandatory for its affiliate schools to have their buildings designed to be earthquake resilient and fitted with basic fire safety equipment. It is important to understand the seriousness of personal safety and how to avoid dangerous situations in school or at home. Learning about all aspects of proper safety is an important part of education. Staying safe is the top priority.

Emotional and Psychological maltreatment destroys a child's sense of self and personal safety schools must provide the right ambience to develop and enrich talents to facilitate the total development of a child's personality.

Installing CCTV cameras at strategic locations across school premises would ensure that a child's day to day life in school is constantly being monitored and recorded.

Representatives of 'Safe kids' organised workshop on 'fire safety' in RMD Sinhgad SpringDale School. They had taken demonstration and shown some examples of fire burnt. How to protect ourselves from fire and prevent it. Students of Primary to Secondary school actively participated in workshop. Given numerous feedback on it.
